

Historic Lebanon and Environs

The Host Location for 'The Great American Miniature Donkey Sale'

Lebanon, Ohio and Warren County are destinations in, and of themselves. We thought you might like to know what's here, should you wish to linger longer.

LEBANON

Older than the State of Ohio (1803), the town of Lebanon was settled in 1796. When you walk down the carefully preserved Main Street with its brick sidewalks and wide street, you can almost imagine the horses, mules, and oh yes, donkeys pulling wagons and hauling loads 100 or more years ago. On the hill, you can see several of the '7 sisters', the elegant mansions, one of which is a museum, overlooking the town. Today Lebanon, along with Waynesville, Ohio, 8 miles North on Route 42, are designated as the "Antiques Capital of the Midwest".

The Golden Lamb, Ohio's oldest inn, and eyewitness to almost 2 centuries of US history, still stands and offers travelers (you) food, drink and lodging. You can walk through the halls, and even stay, in the rooms where novelists Samuel Clemmons (Mark Twain) and Charles Dickens stayed. Or if you're partial to US Presidents, Ulysses S Grant, Rutherford B Hayes, William McKinley, James Garfield, Martin Van Buren, William Harding, William Howard Taft and John Quincy Adams all slept there. Even if you don't stay there, you can still visit, eat reasonably priced good Ohio country food, and look into the rooms which are not rented out. There is also an excellent gift shop.

The Warren County Historical Museum in downtown Lebanon houses one the finest Shaker collections in the US. The Federal style building houses a reconstructed village green, artifacts from Union Village, a Shaker Community previously located outside Lebanon, and items of agricultural interest. It has received awards on being one of the finest County museums in the US and has a genealogical record and library which attracts scholars from all over. It stands less than 150 feet from the Golden Lamb and adjacent to the Public Library designed by Frank Lloyd Wright. Typically open Tuesday thru Saturday and Sundays, with an admissions charge. (105 S. Broadway, 513-932-1817)

One of the 'Seven Sisters', and the only one open to the public, Glendower is an 1836-1840 Greek Revival home with excellent displays of early 19th century furniture located 1.5 blocks from the Golden Lamb. Hours vary admission charge. (513-932-1817)

Lebanon, together with Waynesville 7 miles away, form major antiques 'Mecca'. They are home to well over 125 antique, craft, and specialty shops. It is not hard to find something to accent your home somewhere in these two small towns. Dealers from across the US come to Ohio to purchase antiques, and then transport them home where they typically fetch higher prices. There are a number of excellent cabinet makers offering top quality reproductions or build to your specifications. If you are interested in something specific, we may be able to aim you in the proper direction.

The Turtle Creek & Lebanon Railway, operating over a former narrow gauge line, departs on weekends for a roughly 20 mile roundtrip ride from downtown Lebanon. A restored 1950's era diesel-electric locomotive pulls 1930 vintage, open window commuter coach cars and an open air gondola. The train departs and returns from the historic Lebanon station, 1 block south of the Golden Lamb. Web Site: www.lebanonrr.com
